I know there are those of you out there who are simply dying to come work for me. Here is your big chance. If you feel like you have what it takes to join our crack development team drop me your resume at jobs@cfwebtools.com. This is a full time position on site in Omaha NE (**America's best kept secret**). CF Webtools offers excellent pay and benefits and a great work environment. If you think you have what it takes, here is the job description. If you a recruiter *please* don't call or send emails (please... I'm begging you).

CF Webtools is seeking a full-time, experienced Flex Developer. The candidate must be proficient in Flex 2.0 and also familiar with calling ColdFusion CFC's, the Cairngorm framework, Linux and Apache are HUGE pluses. This person needs to be able to work at the highest technical level of all phases of application analysis and design.

JOB REQUIREMENTS

- 2-3 years experience with Flex 2.0
- An eye for designing appealing pages that seamlessly integrates with the rest of the product.
- Experience with MSSQL, MySQL or Oracle.
- Bachelor's Degree or equivalent work experience
- Understanding of and experience with UI architectures (e.g. Cairngorm)
- Self motivated and manage own time/work
- Excellent work ethic and a team player.
- Comfortable multitasking, resolving competing priorities, and meeting project deadlines.
- Excellent interpersonal communication skills and of exceptional character.
- Decisive, action-oriented individual who learns quickly, works independently, and creates solutions.
- Must be authorized to work in the United States on a full-time basis for any employer.

Wish List

- Experience with Flex 3.0
- Experience with ColdFusion a HUGE plus
- Experience with Linux
- Experience with Java or Flash
- Experience with financial data is a bonus
