ColdFusion guru and all around fabulous guy **Brian Rinaldi** has put together what promises to be an outstanding conference called **RIA Unleashed** in the Boston area. The one day event is available for only 30 dollars for early bird registrations - that's unbeatable. The list of speakers includes notables like Jeff Tapper, Adam Lehman, Jason Delmore etc. - the "who's who" of the ColdFusion world (and no doubt dedicated Muse readers :). The even has 3 trackes, Flex and Air, Coldfusion and one focused on overall web development. Knowing Brian it will be an excellent event and well worth the effort. If you have the date free (November 13th from 8 am to 5:30 pm) you should consider attending. You can also follow RIA unleashed on twitter at **@riaunleased**.
